PEOPLE'S MARKET

R. WALLACE SILVER

THE LAUREL pattern in 1835 R. WALLACE "Silver Plate that Resists Wear"—beautiful in design—perfect in workmanship—highest in quality—guaranteed to give satisfactory service in any household.

Now is the season for Iced Tea Spoons. Call and see the spoons so necessary for properly serving a delightful beverage.

T. G. McHATTAN

How'd You Like to be the Dog?

This photograph was taken on the Atlantic coast after the shark scare. It may be seen there are no swimmers in the distance, in water deep enough for a shark to enter.

MEAT INJURIOUS TO THE KIDNEYS

TAKE A TABLESPOONFUL OF SALTS IF BACK HURTS OR BLADDER TROUBLES

We are a nation of meat eaters and our blood is filled with uric acid, says a well known authority, who warns us to be constantly on guard against kidney trouble.

The kidneys do their utmost to free the blood of this irritating acid, but become weak from the overwork; they get sluggish; the eliminative tissues clog and thus the waste is retained in the blood to poison the entire system. When your kidneys ache and feel like lumps of lead, and you have stinging pains in the back or the urine is cloudy, full of sediment, or the bladder is irritable, obliging you to seek relief during the night; when you have severe headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning and in a few days your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in urine so it is no longer a source of irritation, thus ending urinary and bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia water drink, and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active.—Adv.

Notice to Taxpayers

The 1916 tax rolls are now open for inspection. All property owners are requested to come and look over their assessments.

Dated July 27, 1916.

Clemency for Irish Asked

United Press Service

WASHINGTON, D. C., July 31.—The senate this afternoon, by a vote of 46 to 19, asked England's clemency toward her Irish political prisoners. Sir Roger Casement was not mentioned, but was meant.

John M. Ordway, professor of Chemistry, says: "Dead air space is absolutely the best insulation that can be used in refrigerators." Our refrigerators are built with a dead air space and provision chambers lined with odorless white enamel. Come in and let us demonstrate them to you. No trouble.

United Press Service
AUROA, Mo., July 31.—The printing presses of the "Menace," a violent anti-Catholic publication here, were dynamited Saturday morning. No injuries resulted.

DRINK WATER TO AVOID SICKNESS SAYS AUTHORITY

GLASS OF HOT WATER BEFORE BREAKFAST DAILY KEEP THE DOCTOR AWAY

Sanitary science has of late made rapid strides with results that are of untold blessing to humanity. The latest application of its untiring research is the recommendation that it is as necessary to attend to internal sanitation of the drainage system of the human body as it is to the drains of the house.

Those of us who are accustomed to feel dull and heavy when we arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the phosphated hot water is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatic stiffness; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store. This will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.—Adv.

National Capitol at Last Completed

LIFTING THE LAST STONE

Maybe you thought the National wing. This portion of the house wing Capitol at Washington was completed about fifty years ago. But it wasn't. The last stone was laid the other day, and this is a photograph of the operation. This was the last step in the construction of the pediment of the east wing of the house of representatives, a companion piece to the pediments over the main entrance and the senate Working People."

JUST LIKE A WOMAN

United Press Service
LONDON, July 31.—The wife of a London barman, who has employer a heavy fine today, two detectives attempted an arrest under anti-traiting law.

"Two quarts of beer, please, ma'am," ordered one of the men as the barmaid sat down at a table in the "pub."

The barmaid brought the beer, accepted the detective's money and was about to turn away when the sleuth arose with a triumphant smile.

"Now! I've caught you, haven't I?"

"Not on your life," was the quick come-back. "You ordered two quarts of beer and you got them. Now you drink them."

"Then, turning to the other detective, she asked 'What's yours?'"

WILL HONOR MEMORY OF CRATER LAKE DISCOVERER

MEDFORD, July 31.—"Erected to the memory of John W. Hillman, who discovered Crater Lake at this point June 12, 1853. Mr. Hillman was born in Albany, N. Y., March 29, 1833; came to Oregon in 1849, and died in Hope Villa, La., March 19, 1915."

This will be the inscription on a concrete seat to be placed at the spot where Hillman discovered Crater Lake in 1853. The contract for the seat has been awarded to a Medford man, and it will consist of reinforced concrete, built in a semi-circle, seven feet in diameter, with paving inside of concrete tile in maroon.

Everything for the camper but the camp. Hammocks, folding camp stools, stores, etc.

DRINK HOT WATER BEFORE BREAKFAST EVERY MORNING

Hopes every man and woman here will adopt this splendid health habit.

Says a glass of hot water with a teaspoonful of limestone phosphate in it washes poisons from system, and makes one feel clean, sweet and fresh.

Why is man and woman, half the time, feeling nervous, despondent, worried; some days head-achy, dull and unstrung; some days really incapacitated by illness.

If we all would practice the drinking of phosphated hot water before breakfast, what a gratifying change would take place. Instead of thousands of half-sick, anaemic-looking souls with pasty, muddy complexions we should see crowds of happy, healthy, rosy-cheeked people everywhere. The reason is that the human system does not rid itself each day of all the waste it accumulates under our present mode of living. For every ounce of food and drink taken into the system nearly an ounce of waste material must be carried out, else it ferments and forms ptomaine-like poisons in the bowels which are absorbed into the blood.

Just as necessary as it is to clean the ashes from the furnace each day, before the fire will burn bright and hot, so we must each

morning clear the inside organs of the previous day's accumulation of indigestible waste and body toxins. Men and women, whether sick or well, are advised to drink each morning, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it, as a harmless means of washing out of the stomach, liver, kidneys and bowels the indigestible material, waste, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Millions of people who had their turn at constipation, bilious attacks, acid stomach, sick headaches, rheumatism, lumbago, nervous days and sleepless nights have become real cranks about the morning-inside bath. A quarter pound of limestone phosphate will not cost much at the drug store, but is sufficient to demonstrate to anyone its cleansing sweetening and freshening effect upon the system.
